

WELLAND

ME-700E ~ 3.5" IDE/SATA to USB3.0 Enclosure

Supports SATA III 6Gbps Hard Drive

The Welland Speed Master HDD enclosure supports the most advanced SATA III hard drive which features the 6Gbps transfer speed, the world's fastest data transfer rate. On the other hand, the output USB3.0 interface gives the greatest USB performance and compatibility for today's computers.

The Speed Master enclosure is constructed with a high quality aluminum case that not only protects the hard drive but also offers superior heat dissipation. This enclosure is also suitable for the IDE hard drive. With the simplicity of installation, it's the most convenient DIY storage solution for the public users.

Specification
