## ME-746J ~ SATA to USB2.0/eSATA Enclosure

Form and functionality collide with style in the SunBright 3.5" External Hard Drive Enclosures. With the first-class technology in offering the hard drive enclosures, the sturdy drive cage protects your drive while the aluminum case effectively draws away the heat, protecting your drive from overheating.

SunBright External Enclosure targets the USB 2.0 and eSATA high speed transmission, easily to store your personal digital files safely and quickly. This hard drive enclosure is the great example of SATA enclosures in the latest generation and it is above the price in value. With the simplicity of installation, it's the most convenient DIY storage solution for the public users.
