

WELLAND

TURBO LEOPARD , 2.5" SATA to USB3.0 HDD Enclosure

**TURBO LEOPARD
ME-940S**

The Welland TURBO LEOPARD USB3.0 enclosure offers USB3.0 SuperSpeed transmission rate of up to 5Gbps. The computer is capable of reading and writing to the external drive at its maximum speed, but it is also backward compatible with USB2.0 host controller of your computer. (Using USB3.0 host controller is recommended.)

Compliance with existing 7.5 / 9.5 / 12.5mm of 2.5" SATA drives, the ME-940S is constructed with a high quality aluminum case that not only protects the hard drive but also offers superior heat dissipation. The ME-940S enclosure is also pleasing to the eye, with its nickel plated shell and the frontal LED indicator. One-Touch-Backup is ideal for quick data copy from your PC to the external drive.
