

WELLAND

Speed Master

ME-947E ~ SATA 6Gbps to USB3.0 Enclosure

The Welland Speed Master HDD enclosure supports the most advanced SATA III hard drive or SSD which features the 6Gbps transfer speed, the world's fastest data transfer rate. On the other hand, the output USB3.0 interface gives the greatest USB performance and compatibility for today's computers.

Compliance with existing 2.5" SATA drive up to 12.5mm, the ME-947E is constructed with a high quality aluminum case that not only protects the hard drive but also offers superior heat dissipation. The ME-947E enclosure is also pleasing to the eye with stylish finish. The slim and compact aluminum enclosure is the best on-the-go storage protector.

Specification
