Enclosure Dimension 198 x 125 x 33mm (L x W x H)

The definition of the Predictor's LED

Green LED means the hard drive works in "good" condition.

Yellow LED means the hard drive still works fine , but some S.M.A.R.T. parameters are close to their life cycle , so it shows "warning" to the user.

Red LED means the hard drive is in "dangerous" condition as some S.M.A.R.T. parameters are out of their life cycle. Data backup is strongly recommended during this period.

*Install the Predictor's software to see all S.M.A.R.T. parameters in detail.
