## 3.5" HDD over IP Enclosure

**SunBright  
ME-745K**

The ME745K is a cost-effective external hdd enclosure working over Ethernet.

It is a simple LAN case for home or small office. Users can access it simply without any hassle.

Not only allows the basic storage access by USB, but also the 3.5 inch hard disk box offers a RJ45 connection to create an external storage share anywhere over the network. Simply plug the SATA enclosure in your existing network, have the software installed in any PC as the controller master to set Windows share disk function, then all networked PCs can share the drive together.

### **How to configure ME745K as a networked drive ?**

1. Available RJ45 port for Ethernet connection.
2. Install the software to mount the drive , and share it by using Windows share disk option.
